

THE ONE AND ONLY TOGGLE DRIVE

SPOTLIGHT & ADVANTAGES

For almost 20 years we have been supplying you with high performance moulding machines with the outstanding toggle drive. Why our EMMotion became so successful?

NO HYDRAULIC

- maintenance friendly
- no viscosity variations
- clean production area
- low noise emission
- powerful and even drive
- speed: 500mm / sec.

SIMPLE CONCEPT

- even movement on moveable side
- no lowering of the moveable chamber
- high positioning- and repeat accuracy <0,1mm
- no loss of stroke

BEST DRIVE SYSTEM

- long lasting
- most reliable electric drive system
- for machines up to 3,4m² at max. 1,6 bar
- no locking system
